Meeting for a New Southern Route.

Pursuant to previous notice a meeting to consider the policy of adopting a new southern mail routs, convened at the Bigelow Hotel on Wednesday evening the 27th inst, and organized by the appointment of Jas. Burtenshaw chairman and A. A. Parker, Secretary. The objects of the meeting being briefly stated, Mr. Cuburn thought the present route entirely impracticable the present route entirely impracticable aa a permanent one and that the somer we meet the present and constantly in tea ng domand of the travel and traffic over it by the selection of a new route; the better. The present route via., Wisconsin river besides being a very circuitous and hilly one passes through a large amount of barren land while the timbered portions

The standard contract of the c would have to be constructed to connect with Eagle Lake, and by this route the Mincsota Mine would be about 205 miles from the rail road at Appleton. This listance could be made over a dry road in

ivo or six days. The present route requires eight days to reach railway at Berlin. But this can be shortened in good weather say one day. The distance to Berlin is about 260 miles from the Minesota Mine.

A part of the present route passes through the most barren portion of Wisconsin. In fact there is little on this route except the pineries to sustain a population between Wausan and the southern trap range-for a and a considerable population have made settlements, as far north as the Menomoneo solicitor of the estate, at the reserved price Reservation. This is an important consideration, as settlements along the line would powerfully assist in keeping up and perfecting the road.

On motion Messrs Coburn, Emerson, and Jones were appointed a committee to report the sense of the community on the subject to a future meeting. The meeting then djourned to convene at Kunath's Webster on Wednesday evening the 3rd of April at 7 p. m.

A. A. PARKER, Sec. Big Words.

Big words are great favorites with peos ple of small ideas and weak conceptions. They are often employed by men of mind when they wish to use language that may best conscal their thoughta. With few exceptions, however, illiterate and half-educated persons use more ' big words' than people of thorough education common but very egregious mistake to suppose the long words are more genteel than short ones-just as the same sort of people imagine that high colors and flashy figures improve the style of dress. They are the kind of folks who don't begin, but always "commence." They don't live, but "reside." They don't go to bed, but mys-They are never sick, but "extremely indisposed." And instead of dying at last, they "decease." The strength of the English innguage is in the short words—chiefly The late Lord Robertson, a Senator of monosyllables of Saxon derivation. And other. Love, hate, anger, grief, joy, exdesh, and is the name given to several "can you tell me what sort of a bird the sentences; while coming fulsehood and are fectation delight in what Horace calls v. ba sesquipedalia-words"a foot and a half long."
